MOLLY CONSOLE

\$7,570

DESCRIPTION

Part of a series of elegant furniture pieces that combine sophisticated materials and a retro-chic allure, this console will be a stunning, welcoming piece to an entryway, adding a precious storage space with the two drawers accessible from the front. The wooden structure is finished in grey eucalyptus and boasts tapered legs supporting a rectangular top with round corners. The rose gold-finished metal details create a refined accent, while nubuck leather on the sides and the front panels of the drawers completes the design.
