Fratelli Lisi

MONKFISH STERLING SILVER TUREEN

\$18,010

DESCRIPTION

This is a sterling silver tureen depicting a monkfish with stunning realism. This important piece is entirely handcrafted in Florence by the skilled silversmiths of the Fratelli Lisi atelier, who achieve this degree of detailing with centuries-old techniques and long hours of patient and passionate work. Although artistic, the fish is an actual soup tureen and comes with a purpose-created removable glass container and a sterling silver ladle, creatively embedded in the body of the fish when closed. Due to the importance of the piece it is only made to order.
