## MONOLITE 3 LIGHT-SCULPTURE

\$2,310

### DESCRIPTION

This imposing light-sculpture appears to be fashioned out of a single block of stone, its eclectic shape marked by rigorous linearity that reveals a captivating and unconventional profile. Handcrafted entirely of wood with a dark finish, the tall, vertical base gradually transitions halfway up into a slanted construction, which then extends to a horizontal bar that supports a hollow box containing the light source. Part of the Monolith series, this captivating piece will make a statement in any contemporary interior.
