MORO GOLD SCREEN

\$5,040

DESCRIPTION

Evoking the elegance of 18th century Venetian style, this screen is a bold accent that will infuse a sense of luxury into any bedroom, living room, or powder room. Distinguished for its unique golden finish that has been skillfully hand painted to achieve an antiqued look, this screen is composed of three wooden panels framed in a black border with gold diamonds that highlights their graceful arched shape. Life-like, colorful butterflies are hand painted on the surface to create a visually striking textural and color contrast. Size, color, and number of panels are customizable.
