MORPHISE CHANDELIER

DESCRIPTION

A modern revisitation of a traditional silhouette, this bold teardrop chandelier will exude whimsical allure into a modern-style home. The sturdy iron frame, covered entirely in a deep-red fabric, is distinguished for its pine cone shape, composed of tiers of elegant spirals individually adorned with gold-plated flowers. Strands of clear crystals drape between the flowers while clear teardrop crystals or purple, drop-pendants elegantly hang from the flowers in alternating tiers, the textural and color contrast creating a striking visual impact. First presented at Milan Design Week 2018.
