MORRIS BLACK TALL CHAIR BY GAMFRATESI

\$1,273

DESCRIPTION

This elegant and unique chair was designed by GamFratesi in 2015. Interpreting the two distinctive staples of Thonet's aesthetic in a modern way, the Viennese straw and the steam-bent beechwood, these designers created a timeless and refined piece. The solid beechwood structure supports a seat with a cushion upholstered in grey fabric. The standout feature is the elongated backrest covered in Viennese straw. This chair can be combined with the Morris Low Chair for a dynamic effect.
