Sambuco

MOSAIC AMPHORA VASE

\$1,650

DESCRIPTION

With its sinuous amphora shape and stunning Byzantine-inspired decoration, this elegant vase is an opulent accent for any refined interior. The handmade ceramic surface is adorned with a steel tool that creates tile-like engravings recalling the allure of ancient mosaics. This method, developed by Sambuco, allows for a lavish decoration of floral and abstract motifs flanking a central rendering of two peacocks. The vibrant colors are complemented by hand-applied gold details set into the surface with a third and final firing in the kiln.
