## MOSAIC SET OF 2 ESPRESSO CUPS

\$120

### DESCRIPTION

A splendid wedding gift or a special addition to a personal collection, this elegant set of two espresso cups on a rectangular tray is entirely handmade of ceramic and will infuse a touch of Italian elegance into any kitchenware collection. The flared cups, which boast curved handles that match the tray's handles, are adorned with striking mosaic-like motifs obtained by engraving the surface with a steel tool in small tile shapes, painting them by hand in vibrant colors and pure gold for a lavish effect. This set undergoes three firings in the kiln to set the colors. The tray is 17 cm long.
