MOSAIC TALL VASE

\$1,650

### DESCRIPTION

Part of a series of exquisite pieces crafted and decorated by hand, this tall vase is a unique and opulent addition to a classic or eclectic home. Its sinuous silhouette is defined by mosaic-like motifs hand-etched using a steel tool that are subsequently hand painted with floral and abstract motifs and two splendid peacocks. Details in pure gold are added to recreate the lavish allure of Byzantine artifacts. This superb vase is given a third firing in a kiln to set the colors and create a magnificently ornate effect.
