**MOSCA TRAY**

\$880

## DESCRIPTION

This striking tray, also ideal as a centerpiece, was made entirely by hand in paper clay - using a dough of powdered clay, water and paper. This unique item features a top with a light cream color whose surface is adorned with the silhouette of flies in bas-relief around its edges. The bottom's dark contrasting color is achieved through oxidation. This is a one-of-a-kind object that will look slightly different from the photo.
