MOSO DINING TABLE

\$9,020

DESCRIPTION

This unique table is a one-of-a-kind addition to a contemporary dining room. The top surface is supported by steel legs painted black with baked enamel and is inspired by the ancient mosaic decorations distinctive of the Arab and Byzantine artistic influences throughout Italy and Sicily. Assembled entirely by hand, the beechwood, etimoe, and wenge tiles create an original optical effect that exudes character and sophistication. The mosaic rests on plywood with a side veneer in wenge. The legs are also available in red and the side veneer can be in etimoe. Sizes can be changed upon request, please ask the Concierge for details.
