### MOV VINTAGE TABLE LAMP

\$580

#### DESCRIPTION

Originally named Pinocchio - inspired by the fictional wooden marionette created by Collodi - this unique table lamp has a movable brass joint and a circular base in luminous, golden finish to highlight the vintage effect of the two rhomboidal glass elements. The bulb, hidden in the top glass element, casts a soft light due to the remarkable vintage finish created by mixing colors and powder, adding a textural and visually striking effect. Placed on an end table or nightstand, this lamp will be an eye-catching accent in any decor.
