MR LIPS CLUTCH

\$1,760

DESCRIPTION

This striking clutch was 3D printed in metal using innovative machines and it is part of a collection in which each piece was made one by one. Its exterior was plated in gold after the metal was burnished by the hands of a master artisan. This piece will be a perfect accessory for the evening and the inside features a calfskin leather pocket perfect for holding a modern Iphone. This piece comes complete with an elegant removeable chain strap. Innovation and Italian heritage come together in this lovely piece.
