MUDEC II PLATE

\$110

DESCRIPTION

Part of the Cultures series, this striking plate depicts a mask and is inspired by the Mudec Museum in Milan, whose permanent ethnographic collection displays the art of different cultures. The graphic primitivism of this design, combined with its black and white color combination, is a sophisticated choice that makes this piece modern and elegant. Using the pure geometric shapes of circle and triangle, this dish creates a mesmerizing, labyrinthine pattern that will made a statement on any table.
