Lorenzo Franceschinis

MUSSIDAE #17 VASE

\$2,150

DESCRIPTION

This exquisite vase is hand-turned from a single piece of cedar tree. The gracious shape and natural hues of the natural wood are made striking and modern thanks to a carved texture that is comprised of tiny grooves accompanying the traces of the wood's rings on its surface. On one side, from the center to the perfectly round opening of the mouth, a small series of forged steel rings add a contemporary decorative detail to the piece.
