N. 1 CHARGER BY MARCO SOLZI

\$105

DESCRIPTION

Part of a superb limited edition of three pieces designed by Marco Solzi, this charger was made of steel with a brushed finish and decorated using the screen printing technique. The striking black of the background is adorned on one side with a series of letters juxtaposed to create an almost textural decoration, in which it is possible to distinguish the word "LOVE." Either in multiples to obtain a monochromatic effect, or combined with the other two designs for a striking effect, this piece will make a statement in a modern or industrial setting.
