N. 4 CHARGER BY ELISA NOGARIN

\$105

## DESCRIPTION

Part of a limited Collection designed by Elisa Nogarin, this striking charger will imbue with unique, contemporary-inspired flair a modern interior. It can be combined with others in the same series for a dynamic effect, creating pastel-colored, textural decorations on a minimalist table. Crafted in brushed steel and printed using the screen printing technique, this piece displays an enlarged detail of water seemingly running down a windowpane in a gray, rainy day.
