*Officinando*

N. 5 CHARGER BY MARCO SOLZI

\$105

## DESCRIPTION

This unique charger is part of a limited edition designed by Marco Solzi. Entirely crafted of brushed steel, this piece is decorated using the screen printing technique. On the dark background gracing the surface of the piece appears the image of a traditional chandelier with its flickering lights and curved arms depicted in a striking style that renders the sense of movement of a myriad of candles. It is possible to collect the entire series to create a complete landscape of dream-like portraits.
