NATIVITÀ SET OF 3 PLATES

\$220

DESCRIPTION

Eccentric and glamorous, this set of three porcelain plates reinterprets in an ironic key the theme of the nativity. A chicken, a rooster, and an egg - respectively adorning each of the plates - are minutely detailed to create an intensely provocative comparison that results enhanced by the animal print replacing the usual plumage. The diameters - from smaller to larger - measure 17, 21, and 27cm.
