NATSUMI RED PLATE #2

\$110

DESCRIPTION

Stunning in its simplicity, this plate evokes the atmospheres of the far-away places that inspired artist Vito Nesta on his world tour. Reminiscent of traditional Japanese prints, this exquisite porcelain plate depicts an exotic, dream-like scenery with two female figures on the banks of a pond. Expertly rendered, the plate is characterized by a striking palette of reddish-orange for the background, ivory-gold for the design, and cobalt blue for the details on the figures. An eye-catching, cobalt blue rim adds a bold contrast to this exquisite plate.
