NATURA MORTA VASE IN BRASS

\$420

DESCRIPTION

This striking vase is made entirely in brass and features a squared base supporting an elongated U shaped-rod with diagonal grooves adorning its surface. The top is holed in order to host flower compositions (not included) that can change the mood and the look of a room or entryway. Inspired by Ikebana, the traditional Japanese art of arranging flowers, this object is a perfect balance of nature and man, life and death, modernity and tradition.
