NAUSICAA ARMCHAIR

\$13,190

DESCRIPTION

A modern spin on the traditional barrel style, the striking design of this armchair brings fashion to the forefront of any living room interior. The solid wood frame has a low, angular back complemented by a smooth, burgundy quilted leather cover and stands on two front legs with a special finish to match ebony's color and texture accented with a gold-plated metal band. The deep, cushioned seat is encased in a hugging backrest with low-set arms upholstered in burgundy velvet that ties the whole look together with a nod to traditional design. The cerulean decorative pillow is included.
