### DESCRIPTION

This vase of the Nereidi Collection is an exclusive design by de Allegri & Fogale. Fashioned using traditional Venetian glass techniques, the swooping round body of the vase made of silver glass boasts a central black band and a flared rim with undulating edges. The wide rim and open top reveal a vibrant red mouth: the combination of round-flat forms and dark-light colors creates a unique composition that will transform any decor. A charming accent on an entryway console or dining room table, this vase can be a statement piece or can be displayed with other objects from the collection.
