NERO LAVA SET OF 4 TILES #1

\$145

DESCRIPTION

From the Natura Collection boasting natural motifs, this tile will make a dramatic mural or pavement in an entryway, powder room, or bathroom in a rustic home. Entirely handpainted and glazed, these tiles feature an intricate design revealed in four tiles. The design features frond-like motifs set on an ivory background with a sinuous black frame. The underlaid grid adds a touch of visual linearity that enhances the artistry of the piece. Crafted from terracotta mixed with ground volcanic stone, these tiles must be applied without grouting to ensure design continuity.
