NEST MIDI CEILING LAMP

\$1,115

DESCRIPTION

This unique ceiling lamp is aptly called Nest to hint at the spiraling design of iron tubular elements that were woven by hand in order to obtain an elongated shape evocative of the silhouette of a bottle. The lamp is suspended on a steel rod and its gold internal finishing reflects the bulb shining from inside creating a diffused light that would be ideal for any room in a modern or industrial interior. This piece is also available in smaller sizes: one with a diameter of 24 cm and height of 70 cm, and another with a diameter of 28 cm and height of 90 cm.
