DESCRIPTION

Never_The_Same is a not replicable object. Being 100% handmade, entirely unique, the base of this opera was born from a rejected dish. The dimension of the base changes every time (different size-cm 30/25/22). The upper part is realized carving, cutting, painting with wild clay and recycled material of ceramics and glass production, so the color, and every part cannot be the same too. The upper part can be polished with alcohol.
