NEW TIROLO BENCH

\$3,480

DESCRIPTION

A stylish combination of natural and industrial materials, the sinuous lines of the iron backrests find a striking counterpart in the stern, geometric lines of the wooden base in a unique design suited for both modern and rustic interiors. The unvarnished antique base has an essential, rectangular shape with a long, black iron pole connecting the legs. The five removable backrests showcase different forms inspired by the traditional Tirol chairs reinterpreted in black tear-embossed iron with a clear protective finish for an unconventional, statement-making look.
