NO. 811 CHAIR NATURAL BEECH BY JOSEF HOFFMANN

\$870

DESCRIPTION

This stunning chair was designed in 1930 by Josef Hoffmann. It was crafted of solid beechwood, whose curved elements were obtained by steaming the wood, a trademark of Thonet's aesthetic, as well as the elegant Viennese straw that covers the seat and back. Even if almost a century old, the design of this chair is still current and combines lightness and comfort for a versatile and striking look.
