NOVA SET OF 2 CHAIRS

\$1,780

DESCRIPTION

Part of the Nova collection, this set of two lightweight chairs will be an ideal addition to a contemporary dining room or study. The internal structure of the pieces is made of metal rods that support the elastic straps and the polyurethane cushions that give a minimalist and comfortable silhouette to the piece. The cover, in striking black fabric, is completely removable thanks to four zippers under the seat. This design, by Federico Carandini (2014) is also available with leather upholstery - please ask the concierge for details.
