**NOVECENTO ICE BUCKET WITH LID**

\$29,330

## DESCRIPTION

Inspired by the clear lines, bold geometry, and richly detailed work of early 20th-century Art Déco artwork, this ice bucket is a sophisticated accent in any serveware collection. The bucket's lid and insulated container boasts a cone silhouette with smooth, polished surface accented with sparse, diagonal ridges and a recessed rim hand-decorated with delicate grooves. The handles and the finial on the lid are in the shape of nested trapezoids, hallmarks of Cesa 1882's Novecento Collection.
