NUA SET OF 2 CHAIRS

\$2,320

DESCRIPTION

Designed by Alberto Colzani in 2007, this set of chairs is extremely light, comfortable, and visually striking. The two stackable pieces are made of a steel structure where the individual rods are welded to insure balance and stability. Two structured cushions made of polyurethane, held in place by the rigorous structure of the metal without need for fastening, guarantee comfort and are covered in an elegant black fabric. The structure can be painted in black, red, or white, and the upholstery can also be leather - please ask the concierge for changes.
