NY ARMCHAIR

\$2,760

### DESCRIPTION

A trip to the Guggenheim Museum in Manhattan inspired the pattern of the fabric that covers this elegant chair. Laura Pogliani glanced at "Convex-Concave II" by Almir Mavigner (a work dated 1962). Once in Europe she recreated the pattern with the help of the master artisans she works with on jute, on which they embroidered the decor. This striking fabric covers the clean lines of a simple chair made in poplar and beech wood. Chic and delicate, this chair will brighten up any decor.
