OMAMOND CUPBOARD

\$11,410

DESCRIPTION

Talented designer Davide Tagliabue designed this cupboard taking inspiration from Mondrian and his renowned framing technique. Here, a pattern had been created using inserts in solid wedge wood with a dark finish for the lines, creating a structure that protrudes from the surface. There are two pairs of doors with 45 degree profiles and the interior, also in wenge wood, features adjustable shelves in extra-light tempered glass. This piece will complement a modern decor.
