*Griffe Montenapoleone by Vetrerie di Empoli*

**ONDA AMBRA PITCHER**

\$405

## DESCRIPTION

This exquisite pitcher is part of the Six collection and was made entirely in glass, carved to obtain the deep grooves that animate its surface like a multitude of waves. The amber color that graces this striking texture adds a delicate touch to the piece, as does the real gold accent that was hand applied at its rim. Elegant, modern, and luxurious this object will make a statement either if used alone, or if combined with other pieces from the same collection.
