ONE SIDE TABLE IN COPPER

\$5,980

## DESCRIPTION

Entirely handmade, this side table exudes industrial minimalism and a striking allure derived from its artisanal craftsmanship. The structure is in metal - with a copper finish - with a square base folded with a proprietary method and supported by feet CNC-routed from a single sheet of metal. The round shape of the cut-outs on the base occurs also in the round top for a dynamic and sophisticated effect. Due to its handmade production, this table might have small imperfections.
