ONE SIDE TABLE IN POLISHED ALUMINIUM

\$4,030

## DESCRIPTION

Inspired by pure geometric shapes, this side table displays minimalist sophistication that makes it ideal for a modern interior. The round top is supported by a square base that is cut out by other circular elements for a dynamic effect. The feet are also round, CNC-routed from a single sheet of aluminum. The entire piece is handmade and folded using a proprietary technique. Due to its artisanal production, this table can display small imperfections.
