ONYX ROCK CRYSTAL AND WHITE GOLD BUTTON CUFFLINKS

\$1,190

DESCRIPTION

A play on contrasting colors and geometric silhouettes, this elegant pair of cufflinks was entirely handmade and is a timeless addition to a personal collection, adding a refined accent to a special occasion. The round toggle of rock crystal is the counterpart of a round satin-finished onyx face with a rock crystal center. They are both mounted in 18-carat white gold, which also makes the post.
