Daria Petrilli

OPIUM DIGITAL PAINTING

\$1,365

DESCRIPTION

Inspired by the poetry of Charles Baudelaire, this digital painting is based off a photograph of a famous German dancer from the early 20th century. In the foreground, poppy buds evoke a drug-induced state of altered consciousness, amplified by the dreamlike atmosphere of the background. A robin emerges from the woman's chest, symbolizing her obsession. Signed, numbered Limited Edition.
