ORA COLLECTION ROSE QUARTZ FONTANA

\$3,705

DESCRIPTION

Ora Collection, designed by Sara Ricciardi with Hebanon 1830, is a wellness ritual composed of six objects that form a sequence, determining gestures through the weights, the hand and foot massagers, the incense holder, the hourglass and the perpetual fountain. "Ora", in Latin, means the action of praying in the admonition "Ora et labora" (pray and work), which is a teaching aimed at caring for oneself through body and mind. The ritual starts from the fountain which activates the cycle of water.
