ORBIS WHITE AND GREEN SIDE TABLE

\$1,110

DESCRIPTION

Part of the OrBis collection, this elegant side table will be a stunning and precious addition to a modern living room or study. From its round base in Canaletto walnut, two brass elements stem to support the two top, functioning also as their mounting. Highly customizable, this piece can have metal elements in copper, while the tops can be painted in different colors. Here, the white and emerald green hues strikingly contrasts with the warmth of the wood for a unique effect. Please consult the Concierge for customization options and pricing.
