ORIGAMI COFFEE TABLE

\$3,520

DESCRIPTION

Created out of unconditional love for art and craftsmanship, this spectacular coffee table will make an exclusive, sculptural addition to a contemporary interior. Inspired by Japanese origami, it is entirely made of iron cut and bent by hand and oxidized in a natural way before being lacquered. A recurring theme in Ignazio Romeo's artworks, its initially cubic shape is defined by X-shaped profiles, points, and creases. Please consult the Concierge for details on customization options.
