ORIGAMI STRIPES LIVING TABLE I BY PATRICIA URQUIOLA

\$14,190

## DESCRIPTION

Marble is used like paper to create Origami tables inspired by the Japanese art of origami: the strips of polychrome marbles used for the top are bent 90°, so that they also become the table's vertical support in a graphic game of continuity, lines and colours. Handcrafted with noble materials as Southafrican Sodalite matched to other precious stones make this living table unique and unrepeatable.
