ORIGINE BIG CENTERPIECE #1

\$2,605

DESCRIPTION

Cork and beige and gray Grolla marble generate a new collection, minimal in the sign but with great attention to its eco-sustainability; two regular shapes that arise from the concept of "origin" generate centerpieces and small trays for everyday use. Grolla marble comes from an eco-quarry in which a scrupulous restoration plan is carried out with the sowing of grass and planting of trees parallel to the advance of mining. Please, contact the Concierge for further information.
