ORLANDO TALL SIDE TABLE

\$4,065

DESCRIPTION

Part of the Orlando collection, this tall side table can be displayed alone in a living room, entryway or study, or it can be paired with its low counterpart for a dynamic effect. The classic allure of this piece is particularly suitable for a traditional interior, where this table will be a functional and decorative addition. Its wooden structure features inserts in satin-finished brass or bronzed-metal that strikingly adorn the dark stain of the wooden structure with a round lacquered base supporting a grooved column on which rests the marble top with polyester varnish.
