OSCAR LOW COFFEE TABLE

\$5,070

DESCRIPTION

Above and below: two changeable surfaces "round or square" face each other without ever coming into contact. The two tops interact remotely, involving Etruscan onyx, white statuary marble, Calacatta marble, lacquered wood, bronze-colored glass, supported by a simple chrome-plated metal frame. This is how elegance comes to life. Despite the generous proportions of the tops, due to their reduced height, the tables are not invasive in the living space, but functions as pleasantly decorative island elements.
