OTTO COAT RACK BY ENRICO TONUCCI

\$1,635

DESCRIPTION

An eye-catching piece of functional decor, this exclusive coat rack is composed of a walnut wood frame with a polished metal rod at the top supported by a rectangular base with two cylindrical posts. The alluring contrast between these two materials, wood and metal, and the open frame create an unconventional space to hang coats. This open coat rack works well in hallways and entryways to provide a functional yet minimalist accent.
