BEES MENAGERIE OTTOMANE PORCELAIN DINNER PLATE

\$80

DESCRIPTION

An exquisitely rendered image of bees is depicted on this refined porcelain plate of the Ottoman Menagerie series, inspired by real private reserves of animals at the Sultan's palaces and gardens. Three honey bees take center stage in this plate, their delicate wings and bodies masterfully rendered so as to appear fluttering off the plate. The bees stand out against the background with faded terracotta-colored flowers. Combined with the other pieces of this series, this plate will create a sophisticated look for a formal table on special occasions.
