### OTTOMANE TIGER PLATE

\$70

---

#### DESCRIPTION

This striking design is part of La Menagerie, a series of stunning plates inspired by a real private reserve of animals that used to inhabit the Sultan's palaces and gardens. Either in multiples or combined with the other five pieces of this series for a complete look, this plate will be a stunning addition to a modern or eclectic interior. On the white porcelain the exquisite rendition of a tiger, depicted in a vintage style, strikingly stands out on the pale blue and white depiction of a jungle.
