OVERLOOKING CHEST OF DRAWERS BY LORENZO DAMIANI

\$7,610

DESCRIPTION

Designed by Lorenzo Damiani, this unique chest of drawers is distinctive for the dynamic interplay of interior and exterior spaces. This piece is crafted entirely of solid Canaletto walnut and contains ten drawers in a totem-like structure, whose extended and diagonal handles create a dynamic silhouette that will not go unnoticed in a modern and elegant interior. The drawers provide space to store objects and clothes, while the handles provide a functional shelf where objects can be temporarily placed.
