OVERLOOKING DARK CHEST OF DRAWERS BY LORENZO DAMIANI

\$6,440

DESCRIPTION

This totem-like structure was designed by Lorenzo Damiani as part of the Overlooking collection, a series of solid Canaletto walnut pieces whose shape evokes the concept of a home, with the internal space containing everyday necessities, and the sculptural elements of the handle, with their protruding diagonal silhouettes, as balconies. Sophisticated and modern, this piece can be combined with the others in the same collection for a striking effect.
